The colored man who killed a couple of mask scoundrels near Cocbran, Ga., is fit for America citizenship. And the Georgia coroner's jury who said the negro did right, are good men; we will youch for there. When negroes learn to prote their cabins and persons by promptly killing the masked and cowardly assailants,—there will be more respect for negroes everywhere.

The Fight in Tennessee. Nashville American.

The contest in Tennessee is between the energy, life, thrift and procressive spirit, and the dead fossilism, the disposition to sit down in despair and hug what one has, with no eff rt to improve the condition. It is 'progress against standing still. To recover the lost position of Tennessee, or to go backward, is the matter at issue.

Cured of Drinking. "A young friend of mine was cured of an insatiable thirst for liquor, which had so prostrated him that he was unable to do any business. He was entirely cured by the use of Hop Bitters. It allayed all that burning thirst; took away the appetite for liquor; made his nerves steady, and he has remained a sober and steady man for more than two years, and has no desire to return to his cups; I know of a number of others that have been cured of drinking by it."—From a leading railroad official, Chicago, III.—Times.

ATLANTA, July 28th, 1850. I have witnessed several trials of Lenon-Washing Apparatus and I pronounce it a grand success. It will recommend itself on a singly trial.

M. D. L. McCROSK EY, 12 Mitchell street, Atlanta, Ga. Mr. LeNoir's Washing Apparatus has been in operation while present with a number of gentiemen. Very solled Lace Curtains have been cleaned to perfection without rubbing or beating. I think crery family should see to it that their washing is done on this Apparatus; thereby they would save twenty-five per cent of the soll of the clothes.

divide—the black vote on local issues that other is of intimidation on national questions. This has been made apparent it Virginia, in the city elections in Charlestot and in many other cases; but this difficulty will finally be surmounted as intelligence and education are promoted and extended THE REIGN OF COTTON.

The true forces now in action in the sout are industrial forces; the opportunities to apply improvements and inventions and for he accumulation of widely diffused wealth by rightful methods. The true reconstruction and the real union that are now bein consummated are by means of these industrial forces, and in this work cotton has been and will be the most potent force of all. For a century the limitations of slavery kept the treatment of the cotton plant subject to the most barbarous conditions, with the use of the rudest tools and the most wasteful methods. No matter how intelligent the planters might be (and more intelligent men could have been founcultivating the land in any country in the world than a portion of their number they were yet restricted by their system of labor to the most unfit and wasteful methods. Slavery may have had som moral and political compensations to offset sevils, but as a system of labor there was no compensation. To the economist it presented nothing but the most conclusive evidence of absurdly wasteful barbarism. I was neither cheap, effective nor productive since liberty gave the opportunity for change a vast progress has been made. They habit of the cotton plantit-elf has been altered. It has been forced to mature earlier. It has been made stronge to resist its insect enemies. It has been made to resist its insect enemies. It has been made to resist its insect enemies. The almost unrealized portion of the product of a single year's cultivation of the cotton plant now in use for that purpose (about 13,000,000 acres, or less than two percent of the area of the cotton states) may therefore consist of 75,000,000 to 90,000 000 gallons of oil, 560,000 to 750,000 tons of paper, or 50,000,000 to 100,000,000 pounds of fine clothing wool; and as an incident of this progress, fifty to one hundred percent more cotton fibre from the same area of land now cultivated will be produced with less labor than is now expended, because the large crop on a fertile zere can be picked with as little labor as the small crop on a sterile one, and the limit of the product on of cotton, not in the power of picking the cotton, not in the power of picking the cotton, not in the power of picking the cotton, not in the power of caltivating. We have already precluded critics by saying that these estimates may be deemed visionary, but we are warranted by known facts in saying that the measure of their realization will only consist in the measure of all and the cotton of the cotton.

WANTED—AN EXHIBITION.

As a means to this great end one thing is needed, and that is a great exhibition exclusive y devoted to cotton. What is the secret of its kingship? May it not be found in the fact that cotton or cotton fabrics are almost a legal tender for all the other commodities that the world yields or needs? In one form or another cotton works more international exchanges than any other substance. Two colored laborers working on good land in Mississippi, Texas or Arkansas may easily make twenty biles of cotton in a year, or 10,000 pounds, and with the aid of their children will pick it. The labor of ginning, baling and moving to labor of ginning, baling and moving to Lowell will not exceed the value of the sulted i: a considerable loss by the close to-day thus p'acing the market within small range (Lowell in one year by one operative will work of one more hand; the work done in the work of one in the work of one in the work of the work ago. The joint labor of the two colored laborers on the cotton field, one man to tend the gin, the press and to move the cotton to the mill, and one French Canadian spinner or to exaver, who may have just migrated to England from Canada, suffices to give 600 citizens of the United States all the cotton fabrics they can use in a year, or to cotton fabrics they can use in a year, or to cotton 1,600 Chinese or 3,200 East Indians for the same period.

An Economic Equation.

This is the measure to be applied to the coarse or common fabrics used by the million. One field hand, one to tend the gin and press and to move the bale to the factory and two factory operatives will produce the same supply of the finer fabrics. The economic equation may be stated in the following form: One or two men in agriculture, one man in preparing and transporting, one or two women spinning and weaving, are equal to the production of cotton cloth to meet the need of one thous and to three thousand inhabitants of the various parts of the world. Yet this great cortex, this factor in commerce, almost as potent as gold and more so than silver, at the present day has had but the most meagre attention, even in the great centennial exposition of 1876. It needs now a place in which all new inventions may be concentrated. The

Dear Sirs: My husband informs me that you wish
me to give you a certificate on your Lung Restorer, and I will state that I suffered two years
with Consumption, a d during the time was
treated by Drs Read, Thomas, Chalton, and others of this city, and also by a prominent physician
of Macon, Ga., without inding any relief. My
husband bought me its bottles of your Lung Restorer, which I began taking at once, and found
mmediate relief. I have used the six bottles and
have never felt a symptom of the disease since,
and my general health is better than it has been
in years. I therefore cheerfully recommend it on

Messrs. Lamar, Rankin & Lamar—Gentlemen:
Knowing he component parts of Brewer's Lung
Restorer, I do not hesitate to say that in my be
lief it is the best remedy for Consumption, Bronchitis and other throat and lung diseases, ever
discovered, and I take pl-asure in recommending
it to all who require such a medicine. It is unlike all Cor sumptive remedies I have ever seen,
in that it has no oplaties; and an oplate in my
opinion is the very worst thing that can be given
to any one whose system becomes exhausted by
Consumption.

Mesors. Lamar, Rankin& Lamar—Gentlemen.
My little girl 8 years old has been for some time
troubled with a severe cough, which physicians
pronounced Bronchitis. She slept but little
coughing nearly the entire night and we had to
get up very often to help her out, the cough
so severe. At your solicitation I bought a bottle
of Brewer's Lung Kestorer and she began to improve at once and has been sleeping nicely ever
the coughing nearly the entire high tener condition not long since, but am now rejoicing at her
rapid recovery. Yours truly,
Gentlemen: A member of my family whom I
feared had Consumption, has been entirely cured
by the use of Brewer's Lung Restorer. His condition was very alarming to all of us and we did
everything we could think of to benefit him,
without success, until I got him a bottle of your
Lung Kestorer. He began to improve after the
first dose, and before he had taken two bottles
was entirely cured, where I feared no cure was
possible, and I most cheerfully recommend it to
all whe have any affections of the Lungs. He
was conghing and spitting all the time, so incess
sanity that it prevented his sleeping sech him in
which cast. Had but little appetite, and since he
gan the use of Brewer's Lung Restorer has slept
weil and his appetite is very much better. I have
never seen anything acts promptly and effoct a
cure in so short a time. Wishing you great suecess, and hoping the above may infinence many
to try Brewer's Lung Restorer, where they need a
medicine to strengthen and restore the lungs to a
healthy condition.

medicine to strengthen and the nealthy condition.

1 Sam yery respectfully 1872. E. J. Williams, 1872. Washington Avenue, near Wesleyan Female College. We desire to call the attention of the public to the above voluntary testimonials of the well known persons whose names are at the bottom. We are yet to hear of any one who has not been benefited by the use of Brewer's Lung Restorer, but on the other hand all who tried one bottle came back to get from three to six bottles, saying they had received great benefit from its use. We have a letter from a gentleman at Toomsboro, of fig., saying: "I have had lung disease four or five years, using during the time many different remedies, but have derived more real benefit from this one bottle of Brewer's Lung Restorer than from all the balance put together. I want sk more bottles, which please send at once, as I wish to get them by the time the bottle I now have gives out "Signed H. H. Watkins.

We are also in receipt of an order from I. F. Brown, who is president of the Brown Gin Company, New London, Conn., who says he has become and of the cures made by Brewer's Lung kestorer, and requests us to send him six bottles between the propose to keep the fact before the people that Brewer's Lung Restorer gives satisfaction in every instance.

Death of a Prominent Citizen.
It is with regret that THE CONSTITUTION innounces the death of Judge John Robson, which occurred yesterday evening at five b'clock, at his son's rooms, on Broad street.

Jack, 43 Peachtree street, has started for a full stock of flour for his Bakery, and all articles needed in his first class Confectionary. Our readers will see that he is quietly sleeping; it is a good sound sleep, needed after his hard work the past six months. He is in in a palace sleeper, as our readers can see, and he has the windows all up so he can get fresh air. He has a bair mattress and pillow, and a fellow with a switch to keep conductors and dust away.

He says he feels perfectly safe, as there is but one switch on the road, and that is behind him, and he is going as fast, probably, as if he had a switch in his hand. You must not touch that switch, for if you try to you might forget in a second all you ever tried to remember, and would be lying as quiet about fifteen rods away set if you had always laid there.

Jack has a free run on all roads to the best markets, and he will be better prepared than ever to furnish the public with superior breads, cake-, candies, etc.

Southern Medical College

Editors Constitution: In your notice of this college, you say: "The college is debarred from seeking state or municipal aid. No other institution is thus debarred." Unexplained, the public must come to incorrect conclusions. All institutions of learning are thus debarred by the late state constitution and the city charter. Prior to the war, similar institutions did receive such aid. This young institution has already attained a success most remarkable in the history of medical colleges in this country. For the information of the public, who may be uninformed as to the personnel of the college, the names of the professors are given below:

Dr. A. S. Payne, Dr. William P. Nicolson, both late of Virginia; Dr. E. J. Hallock, late of New York; Dr. T. S. Powell, Dr. John Thad Johnson, Dr. G. G. Crawford, Dr. W. T. Goldsmith, Dr. G. G. Roy, Dr. R. C. Word, Dr. H. F. Scott, Dr. James H. Gray, Dr. W. G. Owen, Dr. James F. Alexander and Dr. E. W. Roach, of Atlanta.

Citizen.

—Lime! Lime! W. S. Wilson & Bro. A Card from Mr. Thornton.

It is being industriously circulated that I will not run through the race as a candidate for the state senate from this district. I hereby announce to the voters of Fulton, Cobb and Clayton counties that I will be a candidate until the end of the race, and furthermore, that I expect to be elected over any and every other candidate. I have consented to run at the solicitation of the some of my friends, and I intend to stand by them. I am no more the candidate of one class of persons than I am of another. I fintend to do right. My friends and supporters are among all classes. Those who, know me are doubtless aware that I treat one person, be be rich or poor, high or low, with as much courtesy and respect as I do another. I have been opposed to rings and expect to continue so. It will hardly be denied that I possess sufficient ability to represent the district in the senate with credit to myself and my constituents. As to whether I shall represent them in the senate I leave it to the people. Respectfully, MARCERLUSE E THORNTON.
